Register (No. 15)

The classification of the soil of excess land is not known. There are 3 rates prevailing in the village. The highest whickist and rate had been applied to the excess land.

This is a Larua river village, surveyed as distinct tract. The accounts available are the Survey accounts of 7. 12. 13. The Dry land more assessed according to fixed rates.

in the District of Madras.

As regards adoption, the question seems to have been ascertained in by Col. Collier. Streamlined Round for Leap at Tenth. So I need not discuss the question now. As for Velasco's annual petition she should be first identified as the writer of the petition.

Boundaries of the village are stated thus. To the west of Hoolyatti limits and on to the south of Gollapatti Kalanga and of Padandah.

(No.

in the Taluk of

in the District of

Conty. q.C.R. The security of third exco must be based on the fact of a gradual encroachment on all sides. The limits of the village are not defined actually or in respect to any natural bounds so that all suspicions of encroachment might be dispelled. An impenetrable extension in grasslands and immovable waste was therefore feasible. The only course left then it to add fully the 30 chained excess minus 10 per cent or 6 chains. The remaining will be 24 chain which should be fully attached at the 3rd class bog rate viz., Rs. 5-²⁰/₁₀₀ per chain or Rs. 12-10-0 ^(as per the map) based on the map of the village. The 1st class land on the same ground 10 per cent Rs. 12-6-10-0. For the difference of the rate. Sd/- A. Narayana Rao

Self - A. Narayana Rao
24th July 1965. By Collector
L.C.

(True extract)

This is a Larva Luan village. The accounts available consist of the apakak of 3, 12/13 and the Standard Return of 1914/15. The Dry Land Survey is abridged at the Survey. The rest was not abridged. The area irrigated in the neighbourhood of this are -

Alupawhara	average assessment	marked Kaka
	12-5-0	
Pandawawaka	13-10-8	

The tanks are all rain fed -

I would fix the wet assessment at the rate for Slippa mine
 Wg No. 12 - 50 per seed Kotta.
 Regarding Survey land, the Dy. Asst. of Dist. 1213 Thoud land in am
 to the extent of Dry 10 $\frac{50}{54}$ chains and wet K.M.P. 3-16- $\frac{1}{2}$.

Direct misappropriation. The munsifs
have been seriously misappropriating
the income under the name of a
pretended diwited object. The accounts
available are the survey accounts
of Madali 1213 and the jamabandi of
Madali 1217. In both these accounts
the village is described distinctly as
a village granted for Sathan chittabha
- Kunnara Swami Kovil Kela Puja
Kallai. The same income village of
Kottappachari Register No 2) has been
also held for the support of the very
Kallai and it had been used for that
object, though very indifferently. The proceeds of that
village come to 450 Rupees and the munsif's book
and jummaats have shown accounts of annual expenditures
to the extent of 25 Rupees a month or 300 Rupees a year.
This income which has been allowed for the support of the
Kela Puja Kallai, has been misappropriated under the
pretence of supporting the clarity of feeding in the Savarni
- Kilanai or Tuesday Natam at Savarn. The actual expenses
incurred there are 2 1/2 Rupees a month (Rs. 30) feeding Pandurams
to the extent of 10 annas every Tuesday. The annual expenditures
on that account are Rs. 300 a year. The remaining being must
then necessarily go into the Landar's pocket. No clear
records show that this was a grant for Sathan chittabha
Natam. The munsif's book is not able to produce
any document in support of the claim of Tuesday Natam.
The Panduram people of that place say that the Sathan chittabha
Natam was a private clarity of the Kallai Madali family
